SONOVISION-ITEP adds to its network with the acquisition of LIGERON

SONOVISION-ITEP is adding to its technical information processing network with the acquisition of LIGERON S.A.

Founded in October 1995, LIGERON S.A. employs 185 people and reported revenue of €13 million in 2004, generated from the following business areas:

- Safety of operation
- Risk management
- Integrated logistic support
- Project management
- Quality assurance
- Environment

This acquisition accelerates SONOVISION-ITEP growth and strengthens its position in the global technical information processing market. It also confirms the company's commitment to extending its range of skills into upstream research.
